Q. Since 2007, why have nearly 200 NY Supreme Court Reporters chosen Min-U-Script as their final transcript production software?

A. Easy... it delivers the finest quality, the best features, it's simple to learn and use and provides the value in the marketplace!!!

SPECIAL FEATURES

Aside from easy and fast production; the best quality PDF formats (full size, condensed, word indexes); printing, emailing, auto-archiving etc; Min-U-Script offers special features for official reporters:

- Merging of multiple ASCII files from all CAT Systems
- Repagination of multiple files
- Casewide Word Indexes for updating reporters dictionaries
- Special Header/Footer features
- Electronic Signature Insertion
- And much more!

In 1990, Min-U-Script® revolutionized the production and use of transcripts with the first condensed transcript and word indexing. For over twenty-seven years, Min-U-Script has been acclaimed for its unequalled quality and features.

In 2007, the Association of Surrogates and Supreme Court Reporters negotiated a Special Pricing program for all reporters, offering both a 50% savings and a highly responsive tech support program.

Now, ten years later, the very same program remains in effect at the very same pricing and support!

And, with the upcoming release of Min-U-Script Pro v.5.0, the tradition continues... the best keeps getting better!

Still not sure...just ask one of your colleagues!
